<tr>
<td>MBA615: Managerial Finance †</td>
<td>FI360: Financial Management</td>
</tr>
<tr>
<td>MBA630: Strategic Marketing</td>
<td>MK351: Principles of Marketing</td>
</tr>
</tbody>
</table>

† MBA515 is a prerequisite for MBA615

- Students must meet the prerequisite requirements of the specified undergraduate course before taking the graduate pairing.
- Alternative course pairings may be possible but are subject to the approval of the respective graduate program directors and area/program coordinators prior to enrollment.
- Graduate courses taken for the 4+1 program will appear as a substitution on the undergraduate degree audit and transcript for the corresponding undergraduate course.

Program Overview:
The 4+1 program will allow students with at least 60 undergraduate credit hours and a cumulative grade point average of 3.0 on a 4.0 scale to take graduate coursework in the MBA or MHA programs, which will not only count towards fulfilling their undergraduate degree requirements, but also count toward the completion of the respective graduate program. Qualified students may take up to 12 credit hours (4 courses) from the respective graduate curriculum, which will reduce the time necessary to complete the graduate degree from two years to as little as one year following the completion of the undergraduate degree.

Qualifications:
1. Students must have completed 60 undergraduate credit hours toward their baccalaureate degree.
2. Students must have and maintain a cumulative undergraduate GPA of 3.0 on a 4.0 scale while taking graduate courses. Should the undergraduate GPA fall below a 3.0 the student will not be eligible to take graduate level courses until their GPA is raised to the minimum 3.0 requirement.
3. Students must complete the 4+1 Request Form to state the intent of pursuing a 4+1 program and to adhere to the policies.

Important Notes:
1. Students will have to apply to the graduate program of choice and meet the admission requirements to officially be reviewed for admission to the graduate program. It is recommended that students apply to the graduate program while enrolled in their final undergraduate semester. In addition, students granted admission into a graduate program must satisfy the graduation requirements as stipulated in the current Graduate Catalog.
2. Students must adhere to graduate school policies while enrolled in graduate courses. Graduate school academic standards allow for a maximum of two “C”s throughout the program and no grade lower than a “C” in graduate courses taken at the time of graduation from the graduate program. When students enter Graduate School, all grades received in graduate courses taken for the 4+1 program will adhere to graduate academic standards and policies. Refer to graduate school academic standards in the current Graduate Catalog.

Graduate Tuition Rates (2019-2020 AY)
- Civilian: $580/cr.
- Veteran: $510/cr.
- Active Duty Military: $420/cr.
