## FCI August Programming

Based on your excellent feedback, the Faculty Center for Innovation (FCI) has taken a flipped approach to its Special Interest Group (SIG) programming this year. Now, there are several ways to engage with the material and one another! First, we have a brief **on-demand video** (approximately 10 minutes) that is available for your viewing at your convenience (see link below). Next, if you wish to engage in **asynchronous exchange** after watching the video, feel free to join the Canvas course to pose questions, exchange ideas, and share best practices - additionally, questions posted in the Canvas course will also be used to facilitate the **live synchronous Zoom session** (aka Reflect & Respond). You are welcome to select any combination (or all) of the options and formats that work best for you. We are excited to share with you the following video and links for August 2020.

### **Authentic Learning and Engaged Teaching in a Digital World SIG**
