### **FALL 2019 INSTRUCTOR WORKSHOPS**

It's hard to believe, but we're already nearing the halfway point of Fall !!

How is your course going? How are your students responding? To help optimize your Fall I class, the *Faculty Center of Innovation* is offering an hour long workshop to create a midterm survey in your Canvas course. Whether you teach face-to-face, blended, Pirate Patch, or online, midterm surveys can help you to improve student learning and engage students in the learning process. During this hands-on workshop, we will discuss the goals of your midterm survey, develop questions to achieve those goals, set up an anonymous survey within your course, and discuss feedback evaluation and implementation.
