Hello,

This is to remind you that business students who had previously taken EN306B and failed, should enroll again in EN306B instead of MG306. The transcript GPA calculation will not replace EN306B when MG306 has been successfully completed. Each course is included in GPA calculations. So, if a student makes an F in EN306B and an F in MG306, the GPA will calculate both F’s.

For business students who have not previously enrolled in Professional Writing we still need to enroll them in MG306 and not EN306B regardless of their catalog year.

If you have any questions on this please let me know.

Thank you.

Steve Fenske
