### 5. Make sure to read the message from the department:

Welcome to FDMA 101!

Jennifer Whitley

All Sections

Hello All!

There are quite a few new members of this group, so I just wanted to reach out and introduce myself. This is a self-paced course, but I am here if you ever have any questions. My name is Dr. Jenny Whitley and I the coordinator of the developmental math program.

You can reach me by either posting in my [virtual office hours](#), emailing me through Canvas, or at [jennifer.whitley@park.edu](mailto:jennifer.whitley@park.edu).

### To get started in FDMA 101:

1. Check your **Inbox** and **Announcements** often for important updates. Make sure to update your Canvas [Settings \(go to Account on the top left\)](#) so you receive all announcements, grade postings, and comments in your Canvas courses.
2. Post on the [Introductions Board](#).
3. Start Unit 1, by watching the video overview: [Unit 1: Overview](#).
4. Review the [Success Tip](#).
5. Attempt the [Unit 1 Pre-Test](#) in Khan Academy.
6. Your scores in Khan Academy do not matter. It is for you to learn what you know and what you don't know so that you can watch videos and improve. When you feel you are ready for the post-test, take it here: [Unit 1 Post Test: See How You've Grown...](#)

Your goal is to earn 80% or higher on the post-test in order to move on to the next unit.

Good luck!

~ Jenny
